MARIE MASON!

Local environmental Organizer caught up in government witch hunt.

Marie is a local school teacher and loving mother of two. On March 10, 2008 Marie was arrested by FBI, Homeland Security, and local police and charged with the 2000 destruction of logging equipment and the 1999 arson at Michigan State University.

This is the latest development in what has been dubbed the Green Scare, a recent wave of government repression aimed at disrupting and discrediting grassroots environmental activism and criminalizing dissent.

Marie is presently being held in the Butler county jail awaiting transfer to Michigan. Marie is a vegan and is not being provided with access to a sufficient healthy vegan diet. In a recent phone call Marie described that she was eating what she could and mentioned she was surviving on little more than oatmeal. This is

unacceptable. It is the jail's responsibility to provide Marie with a healthy balanced diet. We are asking supporters to call the Butler County Jail and politely request Marie be given access to a proper vegan diet.

FRIENDS OF MARIE MASON

We're a loosely formed collective of friends and loved ones of Marie with one common goal. We want Marie home and back into our community and we want it done yesterday. Nothing less than a dismissal of all charges or an acquittal is acceptable to us.

We are raising legal funds for Marie's defense and providing emotional and material support during these tough times. She is our friend and we got her back. That being said it is important to note that we do not claim to speak for Marie in any way, shape, or form. We are encouraging folks to write Marie while she is incarcerated. Letters from the outside will serve as a lifeline and help keep her spirits up.
